Stefano Magrini Alunno

EDUCATION AND TRAINING

[01/11/2025 – Current]

PhD

Università di Modena e Reggio-Emilia

City: Ferrara | **Country:** Italy | **Field(s) of study:** Natural sciences, mathematics and statistics: • *Mathematics* | **Level in EQF:** EQF level 8

Supervisor: Lorenzo Pareschi

Co-Supervisor: Giacomo di Marco

Skills Acquired

- Preparation of presentations and posters using LaTeX
- Numerical methods for kinetic equations

Conferences and Schools Attended / To Attend

- Particle Systems and PDEs XIII (December 1-5, 2025)
- DataHyKing Workshop (March 23-27, 2026)
- MFML Summer School (May 24-29, 2026)
- M&MKT Summer School (June 7-13, 2026)
- ICTP-INdAM-SLMath Summer Graduate School on Machine Learning (June 15-26, 2026)
- LEAN Conference (September 7-11, 2026)
- HJE & MFG Workshop (October 1-2, 2026)

[01/10/2022 – 22/01/2025]

Master's Degree

Università degli Studi di Roma "La Sapienza" https://www.uniroma1.it/it/pagina-strutturale/home

City: Rome | **Country:** Italy | **Field(s) of study:** Applied Mathematics | **Final grade:** 110/110 Cum laude | **Level in EQF:** EQF level 7 | **Number of credits:** 120 | **Thesis:** Exploring Authorial Identity through Data Mining Techniques (advisor: Gabriella Anna Puppo)

Curriculum aimed at Data Science with foundations in cryptography and computational mathematics.

Main courses followed:

Mathematical Statistics (lecturer: Gustavo Posta)

Stochastic Processes (lecturer: Lorenzo Taggi)

Combinatorics (lecturer: Claudia Malvenuto)

Mathematical Models for Neural Networks (lecturer: Elena Agliari)

Computational Mathematics (lecturer: Giuseppe Visconti)

Deep Learning and Applied Artificial Intelligence (lecturer: Emanuele Rodolà)

Other activities:

- University tutor

[24/09/2018 – 30/04/2022]

Bachelor's Degree

Università degli Studi di Roma "La Sapienza" https://www.uniroma1.it/it/pagina-strutturale/home

City: Rome | **Country:** Italy | **Field(s) of study:** Natural sciences, mathematics and statistics: ● *Mathematics* | **Final grade:** 110/110 | **Level in EQF:** EQF level 6 | **Number of credits:** 180 | **Thesis:** Analisi automatica di disegni per attribuzione d'autore (advisor: Gabriella Anna Puppo)

Curriculum aimed at numerical methods and elements of probability.

Main courses taken:

Geometry 1 (lecturer: Andrea Sambusetti)

Algebra 1 (lecturer: Paolo Papi)

Numerical Approximation Methods (lecturer: Giuseppe Visconti)

Geometry 2 (lecturer: Andrea Sambusetti)

Mathematical Analysis 1 (teacher: Fabiana Leoni)

Probability 1 (lecturer: Gustavo Posta)

Complex Variable (lecturer: Kieran Gregory O'Grady)

Laboratory of Programming and Computation (lecturer: Maria Lopez Fernandez)

Rational Mechanics (lecturer: Emanuele Caglioti)

WORK EXPERIENCE

Sapienza Aerospace Students Association https://www.sasa-aerospace.it

City: Rome | **Country:** Italy | **Email address:** sasa-administration@uniroma1.it | **Name of unit or department:** Computer Vision Division | **Business or sector:** Professional, scientific and technical activities

[15/09/2024 – 15/08/2025] **Sapienza Flight Team**

Role:

I was responsible for developing software capable of mapping the territory from photos taken at an altitude of 90m. Research and development activities were also carried out, trying to meet the hardware requirements imposed.

Activities performed:

Development of software capable of mapping a territory.

Creation of mathematical models (of machine learning, but also physical and optical)

Python programming

Report writing with LaTeX and Word.

Consulting in other departments that dealt with computer vision and autopilot software

Familiarity with Blender software, roboflow site and github.

Sapienza Aerospace Student Association https://www.sasa-aerospace.it

City: Rome | **Country:** Italy | **Email address:** sasa-administration@uniroma1.it | **Name of unit or department:** AirDrop Division | **Business or sector:** Professional, scientific and technical activities

Link https://www.youtube.com/watch?v=hb13KonX5lo&t=1s

[15/09/2023 – 15/08/2024] **Sapienza Flight Team**

Role:

Initially a member of the computer vision department, then a member of the AirDrop department, and finally head of the AirDrop division.

Goals Achieved:

The department was responsible for designing a case (built with 3D printers) that could accommodate an 8 oz bottle, a parachute attachment of about 70cmx70cm, and a nano arduino connected to a 5V servo and powered by an 8.4V battery. The department, following numerous tests, was able to complete the work within the time allowed by the team leader by making an easy-to-use and safe prototype.

The team won the safety award of the SUAS 2024 international competition by placing 6th.

Activities performed:

Organization and teamwork

Creating mathematical models (of machine learning as well as physics and optics)

C/C++, Fortran, Arduino and Python programming

Organization of experiments plus collection and analysis of empirical data

Report writing with LaTeX and Word

Assistance in electronics department, computer vision and autopilot software

Familiarity with Blender software, roboflow site and github.

La Sapienza https://www.uniroma1.it

City: Rome | **Country:** Italy

[31/08/2024 – 30/09/2024] **University Tutor**

Preparation and exposure is in-person lectures. Use of blackboard, projector and slides for lecture delivery. Preparation, execution and correction of tests and exercises.

Topics covered: Algebra, Probability, Analysis and Geometry

Coordinator: prof. Andrea Sambusetti

CONFERENCES AND SEMINARS

[07/09/2026 – 11/09/2026] **A Journey Across Kinetic Theory and Numerical Methods** Ferrara

Speaker: Weizhu Bao, Giulia Bertaglia, Giacomo Borghi, Sebastiano Boscarino, Walter Boscheri, Russel Caflisch, José Antonio Carrillo de la Plata, Pierre Degond, Bertram Düring, Francis Filbet, Irene Gamba Martinez, Emmanouil Georgoulis, Nicola Guglielmi, Michael Herty, Jingwei Hu, Shi Jin, Axel Klar, Qin Li, Peter Alexander Markowich, Giovanni Naldi, Gabriella Puppo, Thomas Rey, Giovanni Russo, Giovanni Samaey, Carola-Bibiane Schönlieb, Giuseppe Toscani, Bernt Wennberg

poster title: Adaptive Collocation via Stochastic Solvers in PINNs

Link: https://sites.google.com/unife.it/jaket60

[15/06/2026 – 26/06/2026] **Summer Graduate School for Machine Learning** Trieste

Speaker: Andrea Montanari, Basil Saeed, Cristinta Trombetti, Davide Ghio, Francesca Mignacco,Tatiana Toro

poster title: Adaptive Collocation via Stochastic Solvers in PINNs

Link: https://indico.ictp.it/event/11148

[08/06/2026 – 13/06/2026] **Summer School Methods and Models in Kinetic Theory** Pesaro, Italy

Speaker: François Golse, Cyril Impert, Mikaela Iacobelli, Qin Li, Nilanjana Datta, Alessia Nota, Lorenzo Pareschi.

poster title: Adaptive Collocation via Stochastic Solvers in PINNs

Link: https://mat521.unime.it/~webmama/MMKT/enter.php

[24/05/2026 – 29/05/2026] **Summer School Mathematical Foundations of Machine Learning** Trento

Speaker: Lénaïc Chizat, Nicolás García-Trillos, Guido Montúfar, Enrique Zuazua

Link: https://sites.google.com/unitn.it/mfml-2026

[23/03/2026 – 27/03/2026] **Workshop DataHyking** Ferrara

Auditor

Link: https://datahyking.eu/?page_id=928

[01/12/2025 – 05/12/2025] **Conference PSPDE XIII** Modena

Auditor

Link: https://sites.google.com/view/pspdexiii

HONOURS AND AWARDS

[31/05/2024] **Team competition Awarding institution:** SUAS competition

It reached the 6th position in the world scale.

The competition required the development of a UAV that would accomplish a series of tasks within constraints given by the competition.

Link: https://docs.google.com/spreadsheets/d/e/2PACX-1vSV0_wulZ_djNrAeuGUOWQXyDoUyD6lgD5H7W9tqT8LZu__uv6s0OiEsDP0lbRetUTWTqQ9S1RAdvAr/pubhtml?usp=embed_facebook

[30/09/2022] **Member of MENSA association Awarding institution:** MENSA Italia

Recognition came as a result of an IQ test that you can only pass if you have passed the Mensa threshold of the 98-percentile of the population.Arseclamation

I hereby authorize the processing of my personal data contained in my curriculum vitae in accordance with the General Data Protection Regulation (GDPR) (EU) 2016/679.
